PRINTERS' INK.

A JOURNAL FOR ADVERTISERS.

VOL. LXI. NEW YORK, DECEMBER 11, 1907.

No. 11.

There Is a Way to Get the One Best Dealer in Each Town in the United States as Your Agent.

The plan succeeds because it makes the dealer see the advantage of the plan to himself.

We are willing to tell you enough of the idea as a beginning to make it worth your while to write us.

CONVERSE D. MARSH, Chairman Executive Committee,
The Bates Advertising Co., 15 Spruce Street, New York

The Explanation is-new methods.

An Advertising Agent, To Newspapers.

Last week a Boston advertising agent spoke as follows to a Printers' Ink man who was calling upon him:

"If newspaper publishers would stop to consider the quantity of circular matter that is received daily by every large advertising agency, they would stop sending it. Agencies are anxious to know what newspapers are doing, but they cannot undertake to wade through the mass of printed matter that is sent them. Newspapers will get a hearing from us by advertising in Printers' Ink, but not by sending us circulars."

This man might have added that general advertisers who place their own copy or who have a voice in the agencies' choice of mediums, also read PRINTERS' INK, even if they do not have time and inclination to examine every piece of advertising matter that is brought them by the mail.

There is no worthy publication in the United States or Canada that is after general advertising that would not profit by systematic advertising in Printers' Ink. We have a plan that fits your case, if you want it.

Revolutionizing Ribbon Results

The Secor Standard Visible Writing and Billing Machine is the first and only typewriter to solve the problem of securing uniform work from a ribbon. It is the only machine on which the ribbon never moves except when the type-bar prints. It does not move when the carriage is returned, nor when the space bar is used, nor when the decimal Tabulator is operated, nor when the back space key is brought into action—it moves only when the type-bar prints.

If the ribbon moved with the space bar, or the carriage, there would be some part of the ribbon unused each time a line was written. Then when the ribbon reversed itself (as it does aut

ally on the Secor) and started to wind the other way, the type would strike, from time to time, parts of the ribbon theretofore unused resulting in heavier inking for some of the words or letters, thus preventing uniform work. Every typewriter user has noticed this on typewriters without knowing the cause. It has been one of the unsolved problems of typewriter contruction

The Secer is a ribbon saver too, for the ribbon always moves at the same speed whether winding on an empty spool or a full one—a result accomplished for the first time in typewriter building. It moves a distance equal to the width of the type face each time-and it always moves-so that the ribbon can never be worn full of holes

The Secor keeps the ink evenly distributed in the ribbon and prevents its drying out, as the ribbon is constantly under pressure between two rolls. The pressure as just heavy enough to keep the ribbon fresh and moist. This is another feature of the many mechanical triumphs embodied in the Secor.

You, as a dealer, will find it profitable to sell the Secon since not one of your competitors can easure up the the standard you can set, for this repolutionizing ribbon result is but one of the extraordinary features of "the fastest typewriter ever built."

The company has never had a by a telegram to hold the terri- salesman out nor spent one cent

The cost of preparing copy for a publication with one hundred circulation is just as much as for a publication with a million. It costs just as much to set up the type. It costs just as much for you to check the advertisement. And there are other ways in which a small medium is as much, or nearly as much, expense.

Economy, not to mention effectiveness, demands the use of publications of wide circulation.

THE SATURDAY EVENING POST has more men readers than any other publication,

to secure business except the a reputation for supreme superi-amount represented above; that ority for the machine, spent for its catalogue and book. The idea carried out has been shows.

The showing is phenomenal for the medium, Office Appliances. It seems to penetrate every nook and corner of the world where typewriters are sold. This is the and to tell the truth in a conmore remarkable when it is re- vincing way. membered the publication is printed in English only. Yet applications have been received from several points in Russia, from Norway, Sweden, Holland, Switzerland, France Italy, Germany, South and Central America, Mexico and other lands.

Only a part of the effect of the advertising is shown in the results. A hundred or more letters have been received by the company directly commenting on the character of the advertise-A Chicago man wrote: ments. "As far as my observations extend, no such complete and convincing statements concerning a typewriter have ever before been

presented to the public."

Ore., stationer Portland. wrote: "I have just read a very remarkable advertisement yours. I may say the advertise-ment itself possibly is not remarkable, but the machine it is advertising certainly might be classed in that line. I am not at present a dealer in writing machines, my principal lines being blank books, office supplies and general stationery, but from your advertisement. I believe the supplies are supplied to the supplier of the su advertisement I believe I would like to get hold of your machine."

successful two instances dealers handling well-known machines offered to contract for the Secor before seeing it, accepting it wholly on the advertising and catalogue, and giving up the machine they were successfully sell-

ing.

correspondents expressed positive conviction that Secor is the best machine on the market." was more than publicity. It was work from a ribbon was impos-

let, and that spent in the business to confine each advertisement to feature-one idea; to set one forth a premise and prove a conclusion by irresistible logic: to make no statement that could not be demonstrated on the machine:

> The campaign was planned and all the advertisements were written by the company's advertising and sales manager, C. H. Woodward, who has recently become associated with the Bates Advertising Company in their "One Best Dealer" department.

"One of the pleasing things in this campaign," said he to a said he to a PRINTERS' INK representative. "has been the frank expression of the men we were trying to reach. These expressions served to prove the effectiveness of the ideas; the plan of exhaustively describing one feature only in an advertisement. We got a man's interest at the start and gripped it tight, month after month, adding conviction to conviction, until he felt qualified to say positively that the Secor machine could have no serious competitor,

"The advertisements have been full of information. They told how each particular feature being described, worked; the principle involved; wherein it was different from other machines, and why it was better. They were so written as to make the reader say

to himself, 'that's so.'

"One of the successful elements of an advertisement to chain the interest of the reader, is the element of surprise. To illustrate: One of the series was entitled 'Revolutionizing Ribbon Results, which by the way brought a long letter from Mitag & Volger, the largest ribbon manufacturers in the world, congratulating A very large percentage of the company on its wonderful achievethe ment in the ribbon mechanism of

The long-suffering public do not like this sort of thing. Buying food is too much a matter of prime necessity with them; they don't like to be trifled with in connection with it. To hold their attention up to the buying point an advertisement must show what it aims to sell rather than what deep mystery it can evolve.

And the grocer-what of him? Some day you will be summarily commanded to "bark at the gro-cer," or "bite at the grocer." Poor fellow, he may stand it all, but in his heart he knows it is a long chance advertisers are taking who thus adjure his customers to take unseemly liberties with him.

HOW ADVERTISING SAVES.

"The Scmi-Ready Company spend money in advertising—and they add the expenses to the cost of their clothes." This was the timid "knock" clothes. of a local clothier.

Semi-ready tailoring is well advertised. Mr. Alfred Wood, the vice-president of the company, says that they are the largest industrial advertisers in

Canada, with possibly one exception.
"But our advertising and our selling system saves us money. We spend system saves us money. We spend about \$50,000 in Canada alone, advertising each year a total produce of \$1,000,000—an average of five per cent. ooo,000—an average of five per cent. That expenditure saves us the cost of maintaining a corps of fifteen commercial travelers who would cost us \$75,000. So that our advertising and exclusive agency system really saves us \$25,000. By advertising we talk to over a million people every day.

"Again, the ordinary tailor and clothier has to advertise locally when he buys cheap clothes. The total expense, if figured up on 100 stores like ours, would be over \$100,000. So that by good advertising we save to buyers of Semi-ready clothes a selling expense of \$125,000 on a product of \$10,000,000. That is, you get 12½ per cent more real value, without considering the vastly better style and more enduring wear in our better fabrics."—Montreal Witness. Witness.

ADVERTISING AS AN ART.

At the recent electrical show in Madison Square Garden, New York, there was noticeable a decidedly discordant note amongst the latest wonders in electricity. It was the utter cordant note amongst the latest won-ders in electricity. It was the utter failure of the participants to realize the artistic possibilities of the situa-tion by displaying their wares in an attractive manner. With perhaps, a single exception the cxhibits, interest-ing as they could not fail to be, were very little more than indifferently dressed shop windows. The exception was a firm that conceived the idea of than indinerent dressed shop windows. The exception was a firm that conceived the idea of displaying its specialties by showing them in their application to the needs in the home. This firm placed the devices to which it desired to call special attention in attention in attention. attention, in attractively furnished rooms. The popularity of the exhibit amply testified to the value of artistic advertising, the possibilities of which are yet to be realized by the American business man.—Architectural Rec-

PAUL BLOCK, Mgr. Foreign Adv'g Flatiron Building, New York. Hartford Building, Chicago.

THE MERCHANDISING VALUE and its invasion of New York, OF A HIGH-GRADE CONCERT.

What merchandising value, if any, can a daily concert have that is given in connection with a city department store? And what will be the effect upon the concert's popularity of introducing a lecture in the middle of the programme?

It was to find an answer to these questions that a PRINTERS' INK man visited the Auditorium of the new Wanamaker store in New York the other day, where a morning and afternoon concert have been held daily for several

months.

The auditorium in the Wanamaker building is located on the 2d floor, runs through two stories and is surmounted by eleven A balcony runs other stories. around three sides, and the seating capacity of "pit" and balcony is easily fifteen hundred. There are no pillars to obstruct the view of the audience, and consequently eight immense girders, weighing tons each, are required to support the stories of the building above the auditorium.

auditorium leaves little to be desired. It is finished in white, with The reeds of the imbalcony. mense pipe organ are placed on either side of the platform.

For a number of weeks the concerts had been regularly ad- were being thrown on the screen vertised in the Wanamaker space Dr. Dixon was talking of John in the metropolitan papers, but Wanamaker, his policies, and his when the reporter attended all stores. The talk was not of the mention of them had been omit- intrusive sort, however, and the ted for several days. The pro- lecturer's audience followed him gramme consisted of two organ attentively throughout. numbers, two soprano solos, two end the applause was sincere and selections upon the Angelus, and it was very evident that the peoa lecture by Dr. J. K. Dixon,

Dr. Dixon's lectures are a reg- imposed upon, ular feature of the programme. They are of a popular nature, and other vocal and instrumental cover journeys to various old selections and some very excel-world countries. This day he de- lent moving pictures, but the leclivered what he calls his "Store ture was clearly the chief feature Lecture." telling of the rise of the upon the programme. Wanamaker Idea in Philadelphia

The lecture is illustrated, like all the rest, by fine views thrown on a screen.

auditorium was quarter full, perhaps, when the opening number was given on the organ. This was followed by a well-rendered vocal solo and a selection upon the Angelus. When the time arrived for the lecture the hall was well filled and many persons were standing in rear of the room.

The subject of the day's lecture had not been announced and it was a matter of interest to observe that the audience did not seem to feel imposed upon in the least when they realized that Dr. Dixon intended to talk shop. He showed views of the old Philadelphia store and of the new building, containing forty-two acres of floor space which is beforty-two stewart Building in New York and the new Wanamaker building, which has the Subway as a feeder, with an entrance into the basement. Three hundred and eighty-two subway trains pass this store each day. Views were From an artistic standpoint the presented of the various departments in the store, and of the schools and summer camps for paintings imported from Europe the boys in the Wanamaker emat the rear of the platform and ploy. A couple of illustrations behind the center chairs in the showed the boys' band that came from the Philadelphia store in October to help "officially" open the new building in New York.

And all the time that the views ple did not think they had been

Following the lecture were

Dr. Dixon is an experienced

lecturer and throughout his discourse lays emphasis upon the foundation of patriotism upon which the Wanamaker stores are When he has finished, a listener feels that he has suddenly attained an interest in this store that he did not before possess; all because he has found that his ideas and John Wanamaker's so nearly coincide. This is one way in which the lecture has a merchandising value,it helps to awaken interest in the store by establishing a common bond of sympathy between buyer and seller.

The more direct result of the particular lecture the reporter heard was to give a fuller understanding of the quantities goods on sale in every depart-Of course, this applies, also, to a limited degree in each of the lectures descriptive of foreign countries, because each of them is drawn upon in the search for stock for a big department

It seems evident, also, that there is a third channel through which benefit must come to the store because of these concerts, and this is the most indirect of all. The concerts are affording a means of education which, to many persons, could be secured in no other manner. It is education paid for by Wanamaker, and by many will be remembered gratefully for years to come. The advertising possibilities of the concerts are large Wanamaker indeed, and indicate the keen mind which directs the enterprise.

OASIS IN PRINT DESERT.

You've read good books, haven't-you? Been entertained, interested in every page. But you come to an illustration; you pause a minute, don't you? You are doubly interested by a pleasant meeting with the illustration of the printed story. The story takes on fresh interest by the meeting of a bright oasis in a desert of print. print.

And so it is with advertising. A page, or a column, or a space in a newspaper no bigger than a postal card, containing a cut (a good cut) illustrating the article advertised will catch your eye, draw your attention; yes, as the magnet attracts or draws the needle. Make it a dollar's worth of printed matter and a dollar's worth of cut and note the result; then make it two dollars' worth of printed matter and again note the result. It won't cost you much to make the test .- Dry Goods EconoCASH AND CONFIDENCE.

The Saturday Evening Post has been preaching Confidence all through the recent flurry. Now it has stepped been preaching Conndence all through the recent flurry. Now it has stepped down from the pulpit long enough to practice. Its publisher, Cyrus Curtis, has just spent fifty thousand dollars in advertising a single issue of the magazine—the Christmas Number.

magazine—the Christmas Number.

The Saturday Evening Post believes that this will be a bad year for inflation, but a good year for business. It believes that, with speculation checked, and the weak spots in our currency system bared, business is already started toward a stronger, sounder, safer position than it held six months ago. And it knows, through thousands of clear-cut, intelligent reports from bankers, merchants, manufacturers and farmers, that the country shares these beliefs. They that the They country shares these beliefs. They are solidly founded on good crops, empty warehouses, an unsatisfied demand, and a public with money in the banks.

These conditions mean business, and the Saturday Evening Post has started out for its share of it with the most effective weapon in the merchant's arsenal—Advertising. Summer and winter, its publisher is always in action, going after business with everything from rapid-fire batteries of small ads to sixteen-inch guns which cost ads to sixteen inch guns which cosa a fortune every time they are discharged.

No business man burns up fifty thousand dollars for the sake of the resulting noise and hot air, but because there is business in sight. The publisher of the Saturday Evening Post sees business ahead, and is aining at its Commentarian and the saturday and the s it. Competition was, Advertising the life of trade.—Circular issued Saturday Evening Post last week. is.

"-UNFURLS HER STANDARD TO THE AIR."

Lynn, Mass., Nov. 27, 1907.

Editor of Printers' Ink:

Who is the man preparing the Stand-Who is the man preparing the standard Oil Co, oil heater and lamp advertising that he does not know enough to cut out the name "Standard Oil Co., of New York?" An agent who does not know any more than to flaunt this company, despised in the cubic own should take lessons. than to flaunt this company, despised in the public eye, should take lessons in common sense from a correspondence school. If there is any one thing that will cut out patronage, it is the words "Standard Oil Co." and there is no need, whatsoever, of the company being referred to in the adventise theory of the company being referred to in the adventise. vertising, because named goods a sold. EDWIN W. INGALLS. are sold.

GERMAN WEEKLY, LINCOLN,

Has the largest circulation of any newspaper printed in the German language on this continent—no exceptions.

Circulation 149,281

RATE 35 CENTS.

Roll of Honor

No amount of money can buy a place in this list for a paper not having the requisite qualification.

Advertisements under this caption are accepted from publishers who, according to the 1907 issue of Rowell's American Newspaper Directory, have submitted for that edition of the Directory a detailed circulation statement, only signed and dated, also from publishers who for some reason falled to obtain a figure rating in the 1907 Directory, but have since supplied a detailed circulation statement as described above, evering a period of twelve months prior to the date of making the statement, such statement being available for use in the 1925 issue of the American Newspaper Directory. Circulation figures in the Roll of Honor of the last named character are marked with an (#).

These are generally regarded the publishers who believe that an advertiser has a right to know what he pays his hard cash for.

The full meaning of the Star Guarantee is set forth in Rowell's American Newspaper Directory in the catalogue description of each publication possessing it. No publisher who has any doubt that the absolute accuracy of his circulation statement would stand out bright and clear after the most searching investigation would ever for a moment consider the thought of securing and using the Guarantee Star.

I'HE Montreal DAILY STAR carries more Want davertisements than all other Montreal dailes combined. The FAMILY HERALD AND WEEKLY STAR carries more Want advertisements than any other weekly paper in Canada.

SHOP SHOTS.

There's almost as much in the way you treat customers as there is in the goods you give them.

The best business-making way is a combination of good treatment of the customers, first-class values and bargain-like prices.

Some stores get their business by charging an outrageous price for things and making the purchasers feel as if they were members of the "four hundred."

Better that the cleanliness of your store go unnoticed than that anyone have occasion to remark upon the presence of dirt or cobwebs.

Advertising is a tonic remedy that makes the advertiser stronger for every dose taken, but to stop taking it means a relapse that may prove fatal.

Vanity is a fair mark for the scheming advertiser, and he who learns to take advantage of that universal quality in mankind will be successful beyond peradventure.

No merchant yet has taken advantage of all his opportunities for getting more trade. Probably no merchant ever will, but that is no reason why any man should cease trying.

The store that looks prosperous; that looks as if it were doing business, is the store that will do business. The store that looks dead and dull can be depended upon to be all that it looks.

There's money in side lines if you get the kinds there's money in. Better sleep over night on the questionable propositions of the fellow who has something that you can make a million on.

You expect that in a barber shop men will stand around in their shirtsleeves, but it looks out of place in a store, and ladies will avoid a place where the clerks have that undressed look.

The merchant who says the way he's always done is a good enough way for him is like the fellow who is trying to win races yet driving his trotter in front of a big-wheeled, steel-tired sulky.

One of the best ways of selling good goods is to have the cheap ones; show them first, then come out with the good ones and the difference between the grades, bearing hard on quality and guarantee.

In new lines of goods is where the profits lie. The old stand-bys that every dealer keeps have the prices all cut to pieces on them. Get the new things ahead of the other fellows and make money on them.

The merchant with no confidence in his store and in himself can count on the public feeling the same amount of confidence that he feels. You cannot impart confidence and enthusiasm if you do not have them.

Frequent change of the arrangement of your show cases gives the effect of new goods received. The same old arrangement month in and month out, no matter how many new goods, looks like the same old stock.

In time of peace prepare for war. Don't be afraid to buy goods for the busy seasons just because there isn't much doing now. The man who is always waiting until the demand begins is never ready for it when it comes.

FRANK FARRINGTON.

(OO) GOLD MARK PAPERS(OO)

Out of a grand total of 22,898 publications listed in the 1997 issue of Rowell's American Newspa-per Directory, one hundred and twenty are distinguished from all the others by the so-called gold parts (© 9).

Mr. Shirley, the new president, has been secretary of the Atlas Club for the past two years. He has been engaged in the advertising business for many years, and is now publisher of the Ladies' Review and vice-president of the Clyde W. Riley Advertising System. Mr. Ryan is a director of Lord & Thomas. Mr. Clymer is advertising manager and secre-tary of the House Beautiful Company, and Mr. Woodman, the new treasurer, is advertising manager of the Rock Island System.

one hundred of the leading ad- manager of the Edison Electric vertising men of Chicago.

METROPOLITAN MAGA

THE METROPOLITAN MAGAZINE shows a gain of eleven and onehalf per cent in advertising in its December issue as compared with the corresponding month last year.

Such a gain, in the face of general business conditions, is, indeed, remarkable.

THE first number of Athletic News made its appearance November 30th. It is a four-page weekly; subscription \$1 a year; is devoted to the athletic news of Greater New York, and is edited and published by Lee S. Wood-

THE Gies Gear Company, Dehas reproduced a teletroit. graphic order for gears, upon Western Union blanks. The idea is extremely realistic, and the size of the order indicates that the Gies Company is not complaining of slack business.

The American Bank Banker, New Advertising. York, in its issue dated November 16, inaugurated a Financial Publicity Department, in charge of Edwin I. the Rock Island System. Haines, the paper's editor. Mr. The Atlas Club is composed of Haines was formerly advertising Company, in Brooklyn, .

THE Pittsburg Gazette-Times, with the issue of December 2d, raised its price from one to two cents; this leaves no penny paper in the morning field in Pittsburg.

THE Rochester, N. Y., Herald has issued a statement of circulation for October 30, 1907, showing how the papers were distributed on that day. The grand exclusive of free copies, sales to individuals, samples. political parties or organizations, The rating acis 21,189 copies. corded the Herald by the 1907 Rowell's American edition or Newspaper Directory is as fol-

Copies printed: The daily edition of this paper had credit for an average issue of 16,356 in 1901 and 16,871 in 1903, since which it has not furnished a report, but was credited with more than zero in 1005 and 1006.

1903, since which it has not furnished a report, but was credited with more than 7,500 in 1905 and 1906.

The Sunday edition had credit for an average issue of 9,721 in 1901 and 11,781 in 1903, since which it has not furnished a report, but was credited with more than 4,000 in 1905 and 1906.

The first adver-Winnipeg tising club of Advertisers. Canada was organized at Winnipeg on November 12, with a charter member-ship of forty-two. The name chosen was the Advertising Men's Club of Winnipeg. officers elected are: Honorary president, Horace Chevrier; president, Charles F. Roland; vicepresident, George M. Saults; president, George M. Sauris; secretary, W. McCurdy; treasur-er, Charles C. Lindsay; executive committee, Walter E. Gunn, C. A. Abraham, John Ridington, W. E. Bailey, and H. W. Brodie.

Mr. Roland, in the opening speech, had this to say regarding advertising clubs in Canada;

At the convention of associated advertising clubs of the United States held in Cincinnati in August last, a prominent speaker at that convention remarked that every city of 8,000 and over should have its advertising club. This great Dominion has to-day 39 cities of 10,000 population and over, and westerr Canada's marvelous growth can add annually to that list others that would be eligible for a National Association of Advertisers of Canada, an organization that I would like to see hold their first convention at Winnipeg in 1908.

To obtain the old rate in the Woman's Home Companion, up to and including October, 1908, orders must be sent before December 31, 1907 :: ::

THE DECEMBER MAGA-ZINES

How will business depression affect the magazines?

Advertising managers are op timistic enough. Theirs is an optimistic business, anyway. Most of them admit that advertising devertisements for 18 concerns. patronage has fallen off to some extent, but each protests that it hasn't fallen off as much as he anticipated, and that he is not complaining. His opinion on the present stringency is usually given in a way that would lead the inquirer to infer that probably some of the "weaker" magazines may have been hurt, but that a

Inter- pears to be as great as last year.

are no "weak" magazines.

The worst feature of the strines gency seems to be, not its intensity, but the season in which it happened. For the panic came just at the beginning of the annual subscription period, shortage of currency, temporary halting of industry for lack of cash to pay wages, etc., may con-tinue well past Christmas. As the latter marks the end of the subscription season, it may have an unhappy effect on next year's circulations. A very large proportion of magazine subscription circulation is secured from November 15 to January 1 every year, through special clubbing offers, special advertising pools and the activity of the subscription agencies that quote special rates on groups of periodicals. Subscriptions are peculiar. All through the year they come in according to a steady ratio-that is, if a magazine receives ten subscriptions to-day, it will probably receive eight to-morrow, and twelve the next day, and the current flows on automatically, with little promotion, through every month, because just so many persons all over the country find out each day that they want that magazine, and subscribe for it. But the December subscription season represents a flood tide, worked up by wide exploitation, and taking advantage of the Christmas-gift buying, and putting the magazines most prominently before the public in the month when they are at their best in contents and bulk. have to meet a financial spasm in this important season, therefore, is not exactly the most fortunate thing that could happen, and on the whole year's business there will perhaps be a perceptible decrease.

The American public counts reading matter a necessity, and buys periodicals around Christmas just as it buys coal. Both are necessary in the family. When a twenty-five-cent monthly, a fifteen-cent one, and a ten-center can be had for a whole year for three dollars, and such rates are quoted on endless combinations of periodicals by a sub- HE WOULD scription agency, it stands to reason that people are going to reason that people are going to buy them as necessities, while the old charge against the clubbing offer, that it gives the purchaser election of James A. Johnson, presione magazine he really wants and two he never reads, falls to the ground of its own weight. Some of the combinations in the subscription agency catalogues this year offer values that are strikcompared with the newsstand prices of the same publica-Two fifteen-cent monthlies for \$1.65, three for \$2.30, etc., as compared with \$3.60 and \$5.40 respectively for the same magazines when bought on a newsstand month by month, are bound to bring subscription business. And the circulation manager, in times like these, has the comfort of knowing that only from fifty to seventy-five per cent of subcirculation comes to scription even the best family magazines.
His news-stand sales, depending on trifling individual purchases from month to month, and week The to week, are fairly stable. only thing he has to regret, therefore, is that hard times will probably prevent his running circulation averages up beyond what they were last year-which is the most unfavorable point in the situation as seen by the advertising manager, too.

MAGAZINE NOTES.

The Automobile's subscription price will be advanced January first from \$2 to \$3 a year.

bring subscriptions in hard times, and the magazines have the benefit this year of a carefully worked

The cover of Country Life this particularly attractive. For effective coloring it has seldom, if the cover of a carefully worked effective coloring it has seldom, if

Campaign' is attracting wide attention.
The aim of the magazine is to bring together the child without a home and the home without a child. Three hundred requests for homeless children were received after the first appeal, made in the November issue.

The Delineator shows a very remarkable gain in advertising carried this month over December, 1906. The magazines appealing to women are the only ones, as a rule, which can talk "figures" very successfully this month, and the Delineator has a greater chance here than any of the rest.

OULD HAVE DOUBLED HIS MAJORITY.

NEW YORK, Nov. 30, 1907.

to the office of Supervisor in that city.
We note that his campaign was conducted principally through out-door advertising, the result being his election.

We also observe your comment re-garding the fact that the Ad Club did-not use newspaper space and wonder not use newspaper space and wonder what, in your opinion, would have been the result had they done so—would he have lost the election—or, would he have been elected for two terms?

Very truly yours,

O. J. Gude Co.,

W. S. Yerkes,

2d Vice-Pres. and General Mgr.

POSTAGE PREPAID.

27 Gooch St., BIRMINGHAM, Eng., Nov. 19, 1907. ditor of PRINTERS' INK: Editor of PRINTERS'

I am greatly obliged for yours of 2d inst. to hand. A few hours before, while I was out, Mr. Seth Brown's letter from Chicago came to hand, and characteristic of all good Americans it was short of the foreign postage and my assistant refused to take it in. At my brother's business every letter sent to America is rubberstamped thus:

Parcels, Letters, etc., Not Prepaid Enough, Get Re-

fused Here.
My experience is that Americans are the only and invariable offenders (your favor is the great exception) in this respect,

JOHN COLE.

Don't tie yourself up to the wrong side of the street just because you have been there a long time. It takes a radical change to make a big success. If you want to be noticed, do something noticeable. thing noticeable.

Every advertisement, and even George R. Sims, well-known as a the transparent tickets, placed on brilliant journalist, novelist, and the windows of omnibuses, have dramatic author. "Tatcho" was a diagram of the microscopic at once advertised with unde- structure of the hair-glands, and

other vessels which nourish the then goes on to speak of "The hair, the whole point, of course, remedy discovered, used, and pribeing the proof of the impossi- vately distributed by Mr. Geo. R. bility of making the hair grow by Sims. To this remedy, known as any outward application. Copy 'Tatcho,' the medical profession of the sort that follows sounds has become soundly converted, feasible:

This diagram shows that the hair is attached or fastened only at the bottom, which is its root, where all the growing occurs, and that no nourishment of any sort can reach it through the sides. You can also see that it gets its nourishment altogether from the blood, which is carried to the bot-tom of each hair in a little artery. This blood, after nourishing the hair, tom of each hair in a little artery. This blood, after nourishing the hair, passes out in a little vein. Considering that the hair falls out or turns prematurely gray, because germs settle in the growing cells, and rapidly multiply, it is clear that they must be killed, and the growing cells of the root nourished and built up, before the ailment can be cured. This diagram enables you to see how thick a person's skin really is, and how impossible it would be to rub any preparation through the skin, which is made up of all those cells of different shapes, and through the other tissues, and down to the growing cells in the hair roots, where the germs are doing their harmful work. There is as much sense and reason in claiming to rub food or nourishment down through the skin and into the hair roots, as there would be in claiming to satisfy a hungry man by rubbing food through his skin into his system, and thereby satisfying his hunger. his hunger.

It required a good deal of adin this way against all popular notions, as to the right way to cure baldness, and to persuade the of threepence. public that the only way to cure tisers.

the "Tatcho" loids" proposition by referring to tising and tired of seeing adverthe "superstition"-that baldness tisements to find out what it is all can be cured and falling and gray about. hair arrested, by douching the finishes with a concrete proposithe name of so-called "Hair- pect a good crop of replies. growers," "Dressings," or "Ton- By way of showing the possi-ics," or a "combination." The bility of another way of getting "Tatcho" copy we are looking at the attention of those troubled by

and it would probably be difficult to discover a single doctor who does not prescribe it."

The proprietors of Edwards' Harlene have also struck out a line of their own, and are running a series of advertisements entitled, "Hair Drill," Probably the best way to show the application of these rather enigmatic words will be found in quoting the opening of a recent advertisement. "Have you ever heard of 'Hair Drill'? No? Well, every hair of your head is a little soldier. The duty it shares with its more or less numerous fellows is that of maintaining the temperature of your brain at normal." Later on the question is answered as to the way in which the hair may be drilled, the variillness ous types of hair enumerated, and every reader, if his hair is unhealthy, is entreated to find out by means of a week's free test drill what is the right way of caring for it; finally, there vertising pluck to run full tilt is an offer of a sufficient supply of "Harlene" to carry out a week's trial in return for the sum

Here again, it is impossible to it is by swallowing an internal tell what success has rewarded remedy. Obviously, no one out- the advertisers, but the fact that side the offices of the company this "Hair Drill" idea has been can tell what success has been used for some months now rather achieved, though it is very clear suggests that it has attracted the from the volume of advertising public. One would expect this to done that it must have been more be so, because the title of the than satisfactory to the adver- various announcements is a challenge to the reader's curiosity, and It is interesting to notice that the fact that the phrase is so unthe "Tatcho" advertising is at-usual tempts even those who are tempting to meet the "Capsu- professionally engaged in adver-When the scalp with ordinary hair-oils and tion such as the free trial for pomades, such as to-day go under threepence, one might fairly ex-

the condition of their hair, we quote from one of a series of reading matter advertisements issued by Warner Oliver, who informs "People whose hair is falling, whose scalp is dirty and irritable, or who are becoming bald or gray," that they "should leave all 'cure-all' specifics alone." This gentleman insists on the fact that "Certainly it is true that people who are ever saturating their scalp with one or other of these specifics, or who are trying to make their hair grow, by swallowing some digestion-upsetting preparation, never possess healthy, luxuriant and good colored heads of hair." This all leads up to the fact that "Mr. Warner Oliver, the eminent consultant on the hair" will send a free book of advice as a result of which it is, of course, hoped that the reader will consult the advertiser. It will thus be seen that there are a variety of propositions being made to the bald, or those who fear this condition, and that a great deal of ingenuity has been displayed in making the proposi-tion fresh and unique. Possibly, in a short time there will be so many advertisers in the hair improvement line that the expense of advertising will become prohibitive and that all except one or two will have to drop out, No phenomenon is more puzzling than the way in which half-a-dozen advertisers will all rush into the same field which, after all, may be but a limited one, the result that a large with amount of money is spent with a comparatively small amount of advantage being gained. One or two advertisers might do well, but the half a dozen only cut one another's throats.

F. W. SEARS.

BUSINESS GOING OUT.

The Morse Agency, Detroit, is sending out renewals for Herpicide to newspapers.

The Root Newspaper Association, New York, is asking for rate cards, from newspapers.

The Kline Agency, Ridgeway, Pennsylvania, is asking rates from newspapers generally. The No-Hair Chemical Company, Philadelphia, is asking rates from newspapers direct.

BOSTON NOTES.

The Wernham Mfg. Co., Box 1549, have been asking for rates from magazines on 6 months' advertising.

Mr. Charles Parr, Tremont Temple, Beston, for many years business manager of the Watchman, is now representing the Travel Magazine and Elbert Hubbard's publications.

The Reversible Collar Co., 87 Milk st., is planning a magazine campaign for 1908. Quarter pages, 12 times, will be contracted for. The business is placed direct by Mr. Gilman.

John Wood, of Wood, Putnam & Wood, has just returned from a trip to Detroit, Michigan, and is now making up the list for Berry Brothers, for the advertising of their varnishes.

H. E. Ayres & Co, are adding some more papers to the list for Bald Eagle Whiskey. They are also asking for rates from newspapers for three months' advertising of a new account.

A. A. Rothenberg, 42 Court street, is asking for rates from all the leading magazines. He is planning to advertise a new pencil sharpener, starting in the February magazines, with about 50-line copy.

The W. F. Smith Co., Broad street, is making extensive plans for a large campaign exploiting Smith's Buchu Lithia Pills. The business is to be placed by the J. Walter Thompson's Boston office.

Newspapers are being used by the Hazen Confectionery Co. in several sections of the country. Mr. Louis Kingman is in charge of the advertising, and the business is placed through Lord & Thomas.

Copy is going out every week to appear Fridays in a large list of New England dailies for the advertising of the Boston Sunday Globe. The account is handled by Mr. Stevens, of the Geo. B. Van Cleve Agency.

Friend Brothers, bakers, are using ew England newspapers with large New England newspapers Mr. Jordan of the Shumway Agency is placing the advertising. He is also sending out additional con-tracts for Daniel Webster Flour.

& Co., publishers, Page using metropolitan newspapers and a select list of literary magazines for Christmas announcement books. The business is placed by Mr. Harmon of the Morse International

A list of magazines is being made A 18t or magazines is being made up by Hewes & Potter for the advertising of the Bulldog Suspender. Mr. Bunning, the advertising manager, is also using a large list of small newspapers and publications of all classes on a contingent basis.

R. T. Hale, formerly of the Bobbs-Merrill Co., is now business manager of Small, Maynard & Co., Boston. Mr. Hale is doing extensive advertising in large newspapers and magazines for their line of new publications. The business is placed by the C. F. Wyckoff Co.

Wood, Putnam & Wood are adding additional publications to the list for Gillette Safety Razor. The plans for 1908 include a large list of publications with page copy. Wherever possible, preferred positions are being contracted for. The account is handled by E. F. Gould of this agency.

Collier's Weekly has been doing ex-Collier's Weekly has been doing ex-tensive advertising in Boston and neighboring towns for their story on Mayor Fitzgerald. This plan was for-mulated by Wood, Putnam & Wood, and it is reported that the issues of Collier's containing this story have had a very large sale in this territory.

The Southgate Advertising Agency is using women's publications page copy for the advertising of the Suffolk Silk Co. In many cases back covers and three color pages are being contracted for. The business is entirely mail order and it is reported that the results are extremely gratifying.

Mr. Briggs of this agency is sending out copy on a new book published by Dana, Estes & Co., entitled "Money and Investments." using women's publications page copy

The Barber Agency is using a few agricultural mediums for the adver-tising of Coles the Watchman, and the Nachtlighter Co.

The heart of the New England solicitor has been gladdened by a new large account developed in the field. It is F. W. Bird & Co., East Walpole, Mass. The business is handled by Mr. Townley of the Frank Presbrey Agency. Contracts are now going out for a large list of magazines for eight half pages.

H

off al the

sid

th:

th

The Wetherald Agency has gone over the entire Lydia Pinkham list and is now adding more papers through the country. The contracts are for 1,000 inches in the dailes. Mr. Hitchcock of this agency is sending out contracts for the Emerson Shoe Co., and is also handling the appropriation for Dr. Sloan's Liniment.

Charles Marble, who has been the H. P. Humphrey Co. for who has been with years, severs his connection with this agency this week to accept a position with the Modern Priscilla. Mr. Marble is to have charge of the promotion department of the magazine. In future his accounts will be handled by Mr. Belatty of the Humphrey Agency.

The next meeting of the Ad Men's Club of Boston is to be held December 18th at the Boston Yacht Club. This dinner is to be the Christmas Festival and extensive plans are being made by the directors for a novel entertainment. It is rumored that Santa tertainment. It is rumored that Santa Claus is to be present with appropriate gifts for every member and guest at the dinner.

Some of the New York magazines have had a half-page advertisement of the Glazier Stove Co., Chelsea, Mass. Solicitors from magazines and newspa-pers have been unable to locate this firm; and it is now learned that the address is wrong, the Stove Co. referred to being in Chelsea, 'Mich. Solicitors may therefore cross this advertiser off their list in New England and save a trip to Chelsea.

Mr. Gould, of Wood, Putnam & Wood, has distributed a large poster which has caused a good deal of merri-ment among the advertising fraternity. It reads:

"FOODS FOR THOUGHT.
are advertised by our loving We are adve friends.—Mellin. We are low friends.—Gould. loved by our advert:

When they get the order."

J. A. & W. Bird, India street, are making up a list of agricultural me-diums for the advertising of Rex Flintkote Roofing. This house has just Flintkote Roofing. This house has just put a new roofing on the market which is applicable to dwelling-houses and buildings of all description. This product will be advertised in the spring in a large list of general magazines. J. D. Adams is advertising manager of this concern, and the business is placed by Mr. Johns of the George Batten Agency.

Success Magazine

A Periodical of American Life New York

HERE ARE 3 REASONS

for the large volume of high-class advertising appearing regularly in this magazine:

I. Our broad guarantee to subscribers of the reliability of every advertiser using "Success Magasune," and the protection we offer our readers in their trading, has made a big hit with our clientele—who are among the most responsive class.

2. Every advertisement is so placed alongside of or opposite the best of reading matter that it must be seen and read.

3. The large bona-fide circulation, exceeding 300,000 monthly, was never higher in quality.

Use "Success Magazine" and prove the soundness of these reasons.

Yours for definite results,

Flederic Corne

field

Greater Gains

during the past twelve months in every way,

Editorially Artistically Mechanically

In Circulation and Quantity and Quality of Advertising than any Leading Monthly Magazine.

If you doubt this statement ask those who are posted on such matters leading Newsdealers, Advertising Agents, and Readers.

And Why Such Progress?

BECAUSE—It is the popular Home Magazine of The Great West.

BECAUSE—Westerners everywhere are its proud and loyal supporters. It is their own magazine.

BECAUSE—The West is the most progressive section of the entire world. It is experiencing the greatest industrial and commercial growth.

Look among the advertising pages of The Pacific Monthly and you will find the best class of National Advertisers—keen, shrewd advertisers who are governed by results only. They were quick to recognize the value of The Pacific Monthly as the magazine with which to reach the homes of the West.

Don't you think it a matter worthy of your careful investigation? Let us tell you more about it.

A. M. THORNTON, Mgr. Eastern Office, 1408 St. James Bldg., New York.

READY-MADE ADVERTISEMENTS.

Readers of PRINTERS' INK are invited to send model advertisements. ideas for window cards or circulars, and any other suggestions for bettering this department.

SWAIN-FARMER Co., Wholesale and Retail Dealers in Wood, Hard and Soft Coal, Gas-House and Foundry Coke.

Office: 408 14th Avenue S. E. MINNEAPOLIS, Minn.

Editor Ready Made Department: DEAR SIR—We inclose a few of the ads we are using to sell coal and brace up our transfer business.

we don't do any general advertising as we have but two yards, both in South-East Minneapolis, and we prefer South-East Minneapolis, and we prefer to confine our operations to the vicinity, as there is no money in either the fuel or transfer business if the haul is very long.

Kindly tell us what you think of these; we are new and want to get started right.

Yours truly,

(Signed) SwANT-FARMER Co.,

E. F. Farmer Sales Mgr.

It is a long time since I have seen so convincing a lot of coal Much of its strength, I believe, lies in the apparently reasonable comparisons which are made between the fuel advertised and other kinds. I hope that Swain-Farmer Co. will send others of their ads from time to time for the benefit of readers of this department. Here are some of those that came with the above letter:

HAVE YOU ORDERED YOUR HARD COAL YET?

If you want to save trouble don't delay any longer.

There is not only a serious car shortage reported from the Anthracite district, but so few miners are available that the breakers are working only a little over half time.

The wood shortage, which is evidenced by the extremely high prices prevailing in the Twin Cities, is materially increasing the demand for all kinds of Coal.

This advice is for your own good; if you follow it you will thank us before the end of the season.

WE DELIVER THE GOODS.

SWAIN-FARMER COMPANY, 408 14th Avenue S. E., Telephones: T. S. 16076, 16603; N. W. East 222.

ONLY \$5.50 FOR RANGE COAL. Oak Hill Washed Nut is prepared at an up-to-date washery.

The coal is first immersed in water,

ite

T

then it goes into a jig where the slate, stone, sulphur and other impurities are shaken to the bottom.

The impurities are then conveyed to the dump, the good coal goes to the Roller Screen where it is perfectly sized, the various grades going thence to their proper bins.

During all this process the screen is sprayed to prevent fine coal from accumulating.

cumulating.

Only Anthracite Coal is cleaner and even that is not so satisfactory to cook

One trial will convince you of the superior quality of our washed coal. WE DELIVER THE GOODS.

D. W. WEAVER. MARTINSBURG, W. Va.

Editor Ready Made Department:

DEAR SIR—Enclosed you will find a "bunch" of ads cut from to-day's issue of the Journal, and cut so you can see how they were run in the

can see how they were run in the paper—that is position they occupied. A newspaper in a town the size of ours don't get the best of copy, and the man who usually sends the poorest is the fellow who thinks his the best written advertisement. written advertisement in the paper. The order with most of them is "use the biggest type you can get in the space!

space!"
So, we take them, occasionally rewriting them or writing a new head, and order them set after our idea of how a good ad should be.
Will you kindly criticise them?
The Journal is young—just six months old—and we're not in Printers' Ink's Roll of Honor, but we'll get there one of these days, if nothing honers.

g happens. If not asking too much please state which is the best ad in the bunch-

everything considered.

advance and of PRINT. Thanking you in advance anxiously awaiting the copy of ERS' INK containing your criticism, I Yours very truly, D. W. WEAVER,

Evening Journal, Martinsburg, W. Va.

You are certainly on the right track in helping your advertisers to an attractive presentation of their ads, and the ads show the results of your work, presenting a good contrast between display and body faces, without the use of heavy, homely gothics, and bringing out the important points. But the ads are not particularly good in text, not much, if any, above the average of those produced by country merchants gen-I think the following is the best of the lot, exclusive of your own, which will have attention at another time; but this one is a bit hazy in spots—in the last paragraph, for instance, where it says: "the cost is small-much less than the feeling of security their presence gives. Otherwise it is good, but not as good as it easily might be, for right there was the place for a list of good remedies and their prices:

HOME REMEDIES FOR WINTER

sudden cold or croup, 'specially among the children.

emergencies

Be prepared for such emer by having a remedy at hand. Bring the Dr.'s prescription, us supply your needs with one of our excellent preparations for simple, though oft fatal, ills—the cost is small—much less than the feeling of security their presence gives.

A. M. GILBERT. 300 North Queen Street.

This one is in the "pretty fair" class. It would have been better. in my opinion, had it given some idea of the cost of a complete course, and how much, approximately, the graduate might expect to earn:

limited number of scholars, Men or Women, wanting to take a Railroad or Commercial

COURSE IN TELEGRAPHY can be accommodated in the

PRINTERS' INK.

A JOURNAL FOR ADVERTISERS.

Vol. LXI. NEW YORK, DECEMBER 11, 1907.

No. 11.

Nearly a Thousand Advertisers a Month

The reason for so large a number (probably unequaled in America) is doubtless found in

The Personal Appeal of Three Distinctive Magazines

And here is a partial measure of the strength of that appeal. Over a thousand inquiries a month come to The World's Work, Country Life in America, and The Garden Magazine from their subscribers, asking for information and advice about investments, business helps, building, planting, the care of live stock, and all the other subjects which these three distinctive magazines cover with authority. In order to care properly for this great volume of correspondence we have had to organize a special readers' service. Here, surely, is convincing evidence of the kind of confidence which their subscribers have in these three distinctive publications.

And doesn't it explain the thousand advertisers? As these advertisers continue month after month, they must have found it profitable to use space in magazines which bind their readers to them

in such a strong and intimate way.

Send for our Advertisers' Almanack, if you are interested in distinctive magazines, and you will get more detailed information. A postal request to our Advertising Department will do.
